

Job Title:	2nd Line Infrastructure Engineer (Virtualisation)
Reporting to:	2 nd Line Team Manager
Shift Pattern:	The 2 nd Line team operates office hours of Mon-Fri 0700-1900. Successful candidate would work either 0700-1530, 0900-1730, or 1030-1900 by mutual arrangement to ensure adequate cover across the day. Out of hours services as per an on-call rota, 1 week periods.

Brief overview of the role:	<p>We are currently looking for someone to join our 2nd line team with experience in actively managing and troubleshooting virtualisation technologies in an enterprise environment. A level of wider technology experience is also highly desirable to enhance this role.</p> <p>This role is in our Service Operations team, which provides support to a wide range of Managed Service contracts utilising the ITIL framework. The role is based at our Shrivenham site, with occasional travel to other sites to support project requirements.</p> <p>This is an exciting opportunity in an established and growing Technology Managed Services organisation with a strong commitment to staff training and development.</p>
Duties:	<p>Routine duties include but are not limited to:</p> <ul style="list-style-type: none"> • Support and troubleshooting of virtual (primarily VMware) platforms hosting a range of customer servers and supporting infrastructure. • Maintaining and configuring Hyper-V environments and RDS farms. • Managing performance of host clusters, troubleshooting issues and making recommendations for improvements where possible. • Proactively using scripting tools to automate or standardise common support activities. • Act as a technical lead within the team for virtualisation technologies, mentoring others or creating knowledge items where appropriate. • Resolution of reported faults escalated by the Service Desk to 2nd Line Support within defined Service Level Agreements (SLAs). • Ensuring all actions carried out on issues and incidents are recorded accurately in the Service Management toolset. • The deployment of both standard and complex changes to the customers' infrastructures • Managing test and rollout of security patches, software upgrades, and new software applications. • Participate in project work on new system implementations and changes arising from continuous service improvement plans • Investigating opportunities to improve effectiveness and efficiency • The development of technical procedures that can be operated and managed by the entire Support team. • The ability to work outside of normal working hours to provide standby cover and out of hours services as per an on-call rota.

<p>Essential Skills and Experience</p>	<p>Must have live production experience in:</p> <ul style="list-style-type: none"> • VMware vSphere (including vCenter, ESX clusters, DRS functions etc.) • Microsoft Hyper-V and Remote Desktop Services • Understanding of networking and storage concepts, and their application in a virtualised environment • Working knowledge of underpinning hardware
<p>Advantageous Skills and Experience</p>	<p>Experience in any of the below would enhance the position:</p> <ul style="list-style-type: none"> • Windows Server 2008/12/16 AD environment • Linux OS (RHEL and CentOS) • AV Products (e.g. McAfee EPO and Sophos) • Remedy service management tool • Open source monitoring tools (Icinga/Grafana/Nagios) • Exposure to hyper-converged infrastructure • Routing/switching/firewall technologies • Secure managed WLAN products (e.g. Aruba)
<p>Personal Attributes</p>	<ul style="list-style-type: none"> • Ability to obtain Government Security Clearance (SC) with no restrictions. • Full UK driving license with ability to travel to customer locations • Communication skills to customers and internal senior management • Strong analytical and problem solving skills • Ability to work well independently and as part of a team • A proven record of accuracy, attention to detail along with a high level of initiative and self-motivation • A flexible approach to work at all times and the commitment to ensure tasks are completed to deadline • Experience in mentoring colleagues
